

eurolinkcat

*Establishing a linked European Cohort of
Children with Congenital Anomalies*

This project has received funding from the
European Union's Horizon 2020 research and
innovation programme under grant agreement
No 733001 Jan 2017 – Dec 2021

Professor Joan K. Morris, Chief Investigator of the EUROlinkCAT project, would like to express interest in cooperating with and supporting THE SOS PROGRAM FOR SPINA BIFIDA led by Spina Foundation. Prof. Morris is keen to support the SOS Program, in its aims to provide help to families expecting the birth of a child with a congenital neural tube defect. We are hopeful that the cooperation undertaken will help to support children with spina bifida and their families.

Joan Morris
